

METHOD, SYSTEM, AND PROGRAM FOR RESTRICTING MODIFICATIONS TO  
5 ALLOCATIONS OF COMPUTATIONAL RESOURCES

ABSTRACT

Provided are a method, system, and program for allocating resources for computational resources. A request is received to modify a permitted resource allocation.  
10 A determination is made of a modification restriction providing a limit on modifications that may be made to permitted resource allocations and the requested modification to the permitted resource allocation is allowed if the determined modification restriction allows the requested modification.
